Google

1. Click Settings ◦

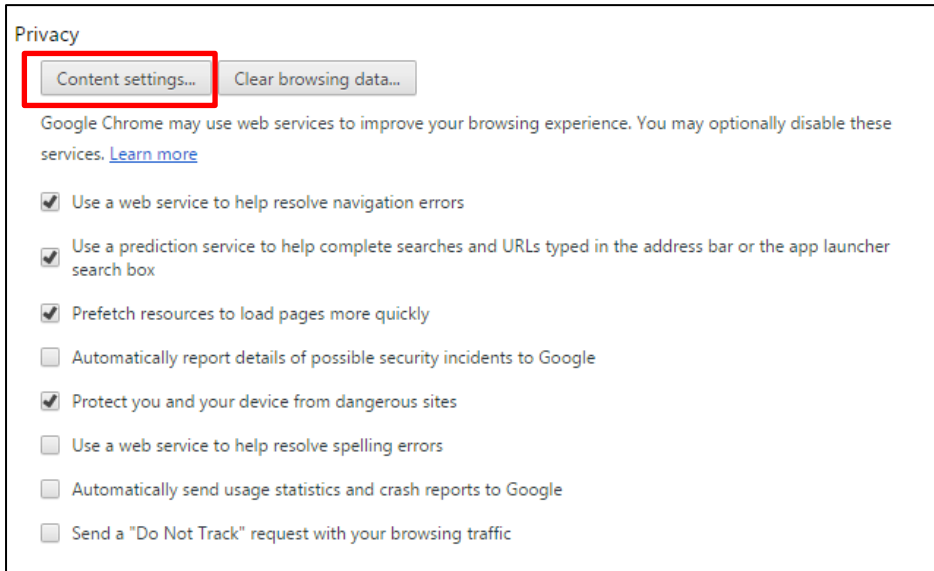

2. Click Show advanced settings.

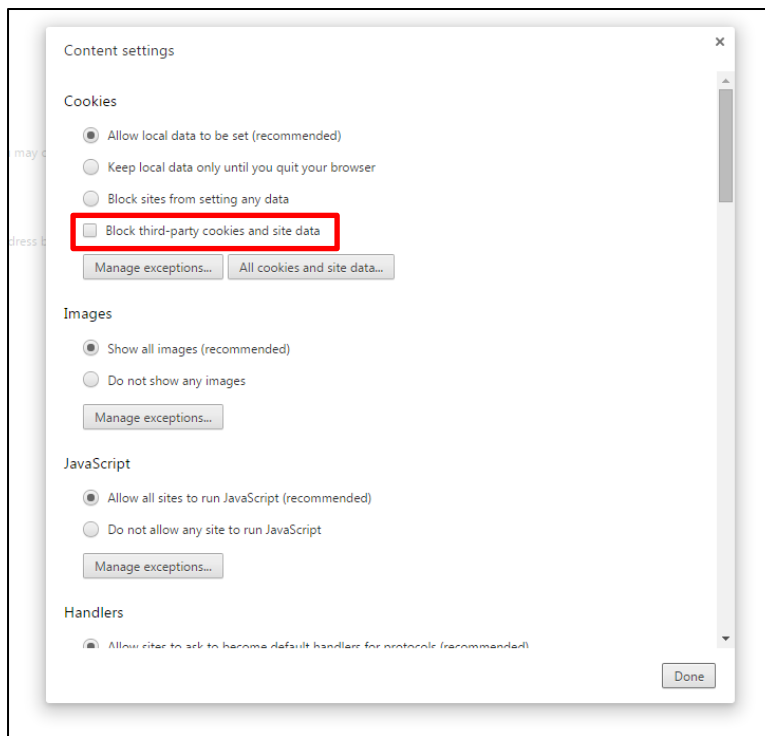

The screenshot shows the Chrome Settings application. At the top, there is a search bar labeled "Search settings". Below it, the "Sign in" section includes a "Sign in to Chrome" button. The "On startup" section has three radio button options: "Open the New Tab page" (selected), "Continue where you left off", and "Open a specific page or set of pages. Set pages". The "Appearance" section contains "Get themes" and "Reset to default theme" buttons, and checkboxes for "Show Home button" and "Always show the bookmarks bar". The "Search" section features a dropdown menu set to "Google" and a "Manage search engines..." button. The "People" section has a text input field, checkboxes for "Enable Guest browsing" and "Let anyone add a person to Chrome", and buttons for "Add person...", "Edit...", "Remove...", and "Import bookmarks and settings...". The "Default browser" section states "The default browser is currently Google Chrome." At the bottom, a button labeled "Show advanced settings..." is highlighted with a red rectangle.

3. Advanced Settings→Privacy › Click Content settings.

The screenshot shows the Chrome Privacy settings page. At the top, there are two buttons: "Content settings..." (highlighted with a red rectangle) and "Clear browsing data...". Below the buttons, a paragraph explains that Google Chrome may use web services to improve the browsing experience and provides a "Learn more" link. A list of settings follows, each with a checkbox: "Use a web service to help resolve navigation errors" (checked), "Use a prediction service to help complete searches and URLs typed in the address bar or the app launcher search box" (checked), "Prefetch resources to load pages more quickly" (checked), "Automatically report details of possible security incidents to Google" (unchecked), "Protect you and your device from dangerous sites" (checked), "Use a web service to help resolve spelling errors" (unchecked), "Automatically send usage statistics and crash reports to Google" (unchecked), and "Send a 'Do Not Track' request with your browsing traffic" (unchecked).

4. Cancel 「Block third-party cookies and site data」.
